

Technical Data Sheet

CaffèPure Decalcifying liquid for home use coffee machines

Product description

Easy to use decalcifying liquid for home use coffee machines. To be diluted with water 50:50 ratio and run through the machine at least once every 6-3* months.

*Depending on the hardness of the water in the area in which you live.

Manufacturing

Product manufactured in Switzerland by the company bonyf AG.

The company is ISO 13485 and ISO 9001 certified.

Composition

Available on request.

Classification, Labelling, Packaging

Warning

Causes serious eye irritation. Causes skin irritation. Keep out of reach of children. Wash hands thoroughly after handling. IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Wear protective gloves. Keep only in original container in a cool, well ventilated place. Keep container closed when not in use.

Test Data

Descaler Performance Test Report - January 2017
Concept: Weight loss of artificial scale.
Result: 0.0303 g/ml

Corrosion data

Descaler Corrosion Test Report - January 2017
Concept: Weight loss after soaking
Result: The steel and alumina samples showed explicit weight loss. For Aluminium this can be accepted because it covers a exposure time of 5 years (assuming a descaling process lasting 2 Min. and carried out every months for 5 years -> 2x12x60 = 5 cycles/2Min. = 2hours). Stainless steel sample remained unchanged.

Regulatory data

Considered a detergent - REGULATION (EC) No 2004/648

Packaging

Plastic Bottles 100ml
Cardboard box
Instruction sheet provided. Languages available on request

Recommended storage

Keep in original container only in a cool well ventilated place and keep container closed when not in use.
Shelf life: None.
